The following is an examiner's statement of reasons for allowance:

The cited prior art does not disclose nor suggest a rotary joint comprising a plate , which can rotate relative to the root the moving vane and is fastened to the fastening base with respect to which it has a slight depth deflection, along the axis and at a distance from the bearing that supports the moving vane, and lengths of flexible tubing-that connect the root of the moving vane to the plate and constitute the air lines over part of their path going from the root of the moving vane to the plate beyond which the pressure sensors are placed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art as cited on the 892 is made of record and not relied upon, but is considered pertinent to applicant's disclosure.
